SKILLS

Languages	:	Python, Java, C, C++, JavaScript
Web Technologies	:	HTML, CSS
Frameworks	:	React.js, Node.js
Databases	:	MySQL, MongoDB
Tools & Platforms	:	Git, GitHub, Microsoft Excel
Cloud & APIs	:	Cloud Fundamentals, API Integration
Soft Skills	:	Team Player, Adaptability, Leadership, Time Management, Creativity.
Course Work	:	DBMS, OOPs, Software Development, OS, DSA, Computer Networks.

PROJECTS

Travel and Tourism – Full-Stack Booking & Destination Management System

Jan 2025 - Aug 2025

- Developed a full-stack travel booking platform with user authentication, destination browsing, and registration workflows using PHP, MySQL, JavaScript, and Tailwind CSS.
 - Implemented secure backend mechanisms including password hashing, prepared statements, session handling, and server-side validation.
 - Enabled file-based record management and real-time booking updates to ensure reliable end-to-end system functionality.
- Tech Stack:** PHP, MySQL, JavaScript, HTML, CSS, Tailwind CSS

Library Management System – OOP-Based Console Application

June 2025 - Dec 2025

- Designed and developed a console-based Library Management System using object-oriented principles such as inheritance and polymorphism.
 - Enforced core functionalities including book addition, issue, return, and persistent record storage.
 - Built a menu-driven interface ensuring efficient user interaction and structured data handling.
- Tech Stack:** C++, OOP (Inheritance, Polymorphism), File Handling, STL (Vectors).

LuxeScout – Second-Hand Luxury Finder Chatbot & Web Platform

Oct 2024 - Dec 2024

- Built a responsive multi-page web platform for searching second-hand luxury products with modern UI animations and premium styling.
 - Integrated Google Gemini API to develop an intelligent chatbot for real-time, context-aware luxury item recommendations.
 - Optimized layouts and applied dynamic chat handling for cross-device compatibility.
- TechStack:** HTML, CSS, JavaScript, Google Gemini API, Animation Effects, Form Handling.

TRAINING

Summer Training in C++ & Object-Oriented Programming

June 2025 -Aug 2025

- Solved 100+ structured and real-time programming problems using C++, improving logic-building and problem-solving efficiency.
- Gained hands-on experience with Object-Oriented Programming (OOP) concepts including classes, inheritance, polymorphism, encapsulation, and abstraction.
- Developed mini-projects such as a Library Management System, applying file handling, STL (vectors), dynamic memory, and menu-driven programming for real-world application.

CERTIFICATES

- | | |
|---|----------------------|
| • PHP with Laravel for beginners become a Master in Laravel Udemy | Jan 2026 – Mar 2026 |
| • Packet Switching Networks and Algorithms Coursera | Nov 2025 – Jan 2026 |
| • TCP/IP and Advanced Topics Coursera | June 2024 – Oct 2024 |
| • Legacy Responsive Web Design V8 Certification FreeCodeCamp | Nov 2023 – Dec 2023 |

ACHIEVEMENTS

Coding Enthusiast: Passionate about problem-solving and algorithmic challenges, having completed 200+ problems on LeetCode and 150+ problems on GeeksforGeeks. Continuously improving Data Structures and Algorithms (DSA) skills.	Aug 2024 – Jan 2025
Open-Source Contributor & Data Visualization Enthusiast: Improved problem solving accuracy and speed by practicing daily coding challenge streaks.	Aug 2024 – Dec 2024

EDUCATION

Lovely Professional University <i>Bachelor of Technology in Computer Science and Engineering; CGPA: 7.34</i>	Punjab, India August 2023 - Present
SR Junior College <i>Intermediate; Percentage: 96.4</i>	Guntur, Andhra Pradesh April 2021 - March 2023
Oxford High School <i>Matriculation; Percentage: 100</i>	Guntur , Andhra Pradesh April 2020 - March 2021
